

iRecord

FEDERAL CONTRACTING

SECURE CRITICAL EVIDENCE WITH OUR INTEGRATED SOLUTIONS FOR PUBLIC SAFETY INTERVIEW ROOM RECORDING.

FEDERAL CAPABILITY STATEMENT

iRecord, along with its parent company WSI Technologies, delivers communication solutions and voice-data-video evidence management systems for agencies to collect, store, analyze, and securely share critical information and casework. We are based in Indianapolis and partner with agencies nationwide, as well as internationally. Our mission is to serve the public sector with innovative products and empower agencies with fully integrated, user-friendly technology.

IRECORD AND WSI TECHNOLOGIES DIFFERENTIATORS

Our unique industry partnerships allow us to streamline service with a multitude of technology and consultation offerings. With us, clients have access to 24/7 help service and field engineers to design, install, and troubleshoot their critical systems. We can even develop and custom-build new tools for specific requests.

- 24/7/365 Help Desk
- Compliant Software and Cloud Storage
- Digital Evidence Management Solutions
- Admin Audit Trail Reporting
- Automatic Chain of Custody
- Third Party Integrations
- Regular Training Forums
- Dedicated to the Public Safety Sector

ADDITIONAL COMPANY DATA

Together, WSI and iRecord operate as the all-in-one, turnkey provider for agencies of all sizes, including law enforcement, judicial court systems, and other federal organizations. Let our solutions help you gather insight from your data, expand your secure interdepartmental communications, and to better serve your populations.
