VIRTUAL MEETING

ENHANCING REMOTE COLLABORATION WITH SECURE, REAL-TIME ACCESS

iRecord Virtual Meeting integration is a pivotal update that transforms how child advocacy multidisciplinary teams, prosecutors, and law enforcement interact and collaborate worldwide.

VIRTUAL MEETING – REMOTE VIEWING KEY BENEFITS:

Seamless Integration

Easily integrate with iRecord's platform to access high-quality audio and video streams directly from the interview rooms without being limited to traditional screen-sharing tools.

Universal Compatibility

Whether it's Microsoft Teams, Zoom, Skype, or any other meeting tool that employs device webcams and microphones, our solution seamlessly supports a variety of digital environments.

Robust Security

Our feature utilizes iRecord authentication and room assignment permissions as an additional security layer for access. Leveraging the iRecord client browser to securely connect to iRecord Universe streams.

Accessible Anywhere

Remote viewing capabilities allow stakeholders such as detectives, MDT personnel, and prosecutors to watch live interviews remotely and collaborate with other attendees on the meeting.

ELEVATE YOUR INVESTIGATIVE PROCESSES

The Virtual Meeting viewing feature is more than just a tool—it's a game-changer for enhancing communication and collaboration across various organizational settings. With this update, iRecord reaffirms its commitment to providing cutting-edge solutions that meet the dynamic needs of modern child advocacy, law enforcement and legal professionals.
